## **The objectives of the CIOFF®**

Since 1970, CIOFF® has worked for the safeguarding and diffusion of traditional culture. Through its actions, CIOFF® aims at the following objectives:

- Promote the intangible heritage, through such forms of expression as dance, music, games, rituals, customs and other arts.
- Serve the objectives of UNESCO
- Support the activities of its members and those of Non-Governmental Organizations working in the areas of folklore and cultural heritage
- Serve the cause of peace, through meeting the above objectives

## **Membership**

The CIOFF® has more than 90 national sections

The National Sections are geographically grouped in Sectors representing the five Continents

## **The activities of the CIOFF®**

Each year, CIOFF® boasts a great number of accomplishments

- Coordination of about 250 International Festivals for folk art
- International exchanges between folklore groups, reaching some fifty thousand artists
- Participation in programs of UNESCO
- Conferences, symposia and exhibitions, especially concerning the transmission of traditional culture to youth
- Publications:
  - The CIOFF® calendar of events
  - Semi-annual Newsletter "Entre-Nous"
  - Annual Report
- Cooperation with various national, international and non-governmental organizations

Indonesian Angklung, Indonesia, Inscribed in 2010 on the Representative List of the Intangible Cultural Heritage of Humanity

## **Les objectifs du CIOFF®**

Depuis 1970, le CIOFF® œuvre pour la sauvegarde et la diffusion de la culture traditionnelle et populaire. Par son action, le CIOFF® vise les objectifs suivants:

- Promouvoir le patrimoine immatériel à travers les formes d'expression telles que la danse, la musique, les jeux, les rites, les coutumes et autres arts
- Servir les objectifs de l'UNESCO
- Soutenir les activités de ses membres ainsi que celles des organisations non gouvernementales et toutes les autres organisations qui œuvrent dans le domaine des héritages culturels
- Servir, en réalisant ces objectifs, la cause de la paix

## **Les membres adhérents**

Le CIOFF® compte plus de 90 sections nationales

Les Sections nationales sont regroupées géographiquement par secteurs représentant les cinq continents

## **Les actions du CIOFF®**

Le CIOFF® mène plusieurs tâches à terme

- Concertation de quelque 250 festivals Internationaux de folklore et d'arts traditionnels
- Echanges internationaux d'ensembles traditionnels touchant plus de 50.000 artistes
- Participation aux programmes de l'UNESCO
- Conférences, colloques et expositions, en particulier sur la transmission de la culture traditionnelle à la jeunesse
- Publications:
  - Calendrier CIOFF® des manifestations
  - Bulletin d'information bisannuel "Entre-Nous"
  - Rapport annuel
- Collaboration avec les divers organismes nationaux, internationaux et autres organisations non gouvernementales

Bistritsa Babi, archaic polyphony, dances and rituals from the Shoplounk region, Bulgaria, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

## Die Ziele des CIOFF®

Seit 1970 arbeitet CIOFF® für die Bewahrung und Verbreitung von traditioneller Kultur. Durch seine Veranstaltungen verfolgt CIOFF® folgende Ziele:

- Förderung des immateriellen überlieferten Erbes durch Ausdrucksformen wie Tanz, Musik, Spiele, Brauchtum, Trachten und anderer Künste
- den Zielen der UNESCO dienen
- die Aktivitäten der Mitglieder und nichtstaatlicher Organisationen unterstützen, ebenso weitere Organisationen, die im traditionellen kulturellen Bereich tätig sind
- dem Frieden dienen, indem diese Ziele verfolgt werden.

### Mitgliedschaft

CIOFF® hat weltweit über 90 Mitglieder(Nationale Sektionen).

Diese Nationalen Sektionen sind geographisch Sektoren zugeteilt, welche die fünf Kontinente repräsentieren

### Aktivitäten des CIOFF®

Der CIOFF® führt mehrere Aufgaben durch:

- Organisation von jährlich etwa 250 internationale Folklore Festivals
- Austausch von internationalen Folkloregruppen mit mehr als 50.000 Teilnehmern
- Teilnahme an UNESCO-Programmen
- Konferenzen, Symposien und Ausstellungen, besonders zur Vermittlung traditioneller Kultur an die Jugend
- Veröffentlichungen:
  - Veranstaltungskalender der CIOFF®
  - halbjährlicher Newsletter "Entre-Nous"
  - Jahresbericht
- Zusammenarbeit mit verschiedenen nationalen, internationalen und nichtstaatlichen Organisationen.

## Los objetivos del CIOFF®

Desde 1970, CIOFF® trabaja por la salvaguarda y la difusión de la cultura tradicional. A través de sus actividades, CIOFF® persigue los siguientes objetivos:

- Promocionar la herencia intangible a través de formas de expresión tales como la danza, la música, los juegos, los rituales, las costumbres y otras artes
- Servir a los objetivos de UNESCO
- Apoyar las actividades de sus miembros y de las organizaciones no gubernamentales y todas las organizaciones que trabajan en el dominio del folklore y la herencia cultural
- Luchar por la paz con estos objetivos

## Miembros

CIOFF® cuenta con más de 90 secciones nacionales

Las Secciones nacionales se agrupan geográficamente en sectores representando a los cinco continentes

## Actividades del CIOFF®

Cada año, CIOFF® lleva a cabo un gran número de actividades:

- La organización de más de 250 Festivales internacionales de folclore y de artes tradicionales
- La organización de intercambios entre grupos de folclore implicando a más de cincuenta mil artistas
- La participación en los programas de UNESCO
- Conferencias, simposios y exposiciones, especialmente en la transmisión de la cultura tradicional a la juventud
- Publicaciones:
  - Calendario de actividades de CIOFF®
  - Boletín de información semestral "Entre-Nous"
  - Informe Anual
- Cooperación con las diversas organizaciones nacionales o internacionales y con las organizaciones no gubernamentales.

# **CIOFF® CULTURAL POLICY**

## **PREAMBLE**

The "International Council of Organizations of Folklore Festivals and Traditional Arts" (CIOFF®) (International Council of Organizations of Folklore Festivals and Traditional Arts) is an organization in Official Partnerships with UNSECO.

**Considering** the importance of the Intangible Cultural Heritage as a platform of cultural diversity and a guarantee of sustainable development, as underlined in the UNESCO the Convention for the Safeguarding of the Intangible Cultural Heritage of 2003 and in the UNESCO Universal Declaration on Cultural Diversity of 2001

**Noting** that an increasing number of international governmental and nongovernmental organizations are involved with the Intangible Cultural Heritage

**Underlining** the desire of members in the CIOFF® National Sections to define a cultural policy following the general consultation in July 1996

**Given** Article 6 of its Bylaws

To maintain peace and strengthen friendship between countries, CIOFF® promotes international understanding particularly in the field of folk art and folk culture, according to the principles of UNESCO

Indonesian Batik, Indonesia, Inscribed in 2009 on the Representative List of the Intangible Cultural Heritage of Humanity

## **OBJECTIVES**

**Aim** The goal of the «Charter» is to promote Intangible Cultural Heritage in accordance with CIOFF®'s charter and in keeping with the UNESCO Conventions

**Purpose** Its primary purpose is to promote Intangible Cultural Heritage in the following areas:

- Dissemination of Intangible Cultural Heritage
- International cooperation

In addition it will facilitate cooperation on:

- Identification of Intangible Cultural Heritage
- Conservation of Intangible Cultural Heritage
- Preservation of Intangible Cultural Heritage

### **PRINCIPLES**

The CIOFF® realizes his objectives based on the principles of:

- the value of cultural heritage
- equality between heritages
- principle of understanding
- respect for heritage

### **ACTIVITIES**

CIOFF® encourages Intangible Cultural Heritage activities by:

- **organizing:** The Folkloriadas, World Congresses and Forums, International Conferences, Workshops and Exhibitions

Adopted during the General Assembly of Thessaloniki of 1997

Updated during the General Assembly of Istanbul of 2008

Bistritsa Babi, archaic polyphony, dances and rituals from the Shoplounk region, Bulgaria, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

# **POLITIQUE CULTURELLE DU CIOFF®**

## **PREAMBULE**

Le "Conseil International des Organisations de Festivals de Folklore et d'arts traditionnels" (CIOFF®) est un partenaire officiel de l'UNESCO.

**Considérant** l'importance du patrimoine culturel immatériel, creuset de la diversité culturelle et garant du développement durable, telle que soulignée par la Convention pour la sauvegarde du patrimoine culturel immatériel de 2003 et la Déclaration universelle de l'UNESCO sur la diversité culturelle de 2001.

**Notant** qu'un nombre toujours plus important d'organisations internationales gouvernementales et non - gouvernementales diffuse le patrimoine culturel immatériel,

**Soulignant** le désir des membres des sections nationales du CIOFF® de définir une politique culturelle.

**Se référant** aux piliers des principes de l'UNESCO qui sont la préservation de la culture traditionnelle et populaire

**Etant donné** l'article 6 de ses statuts :

Pour maintenir la paix renforcer l'amitié entre les peuples, le CIOFF® promeut la compréhension entre les nations, particulièrement dans le domaine de l'art populaire et de la culture traditionnelle, selon les principes de l'UNESCO.

## **OBJECTIFS**

**But** Le but de cette doctrine est de promouvoir le patrimoine culturel immatériel qui se réfère à la charte du CIOFF®, conformément aux instructions de l'UNESCO.

**Objectifs** Ses objectifs premiers sont de promouvoir le folklore dans les domaines suivants :

- Diffusion du patrimoine culturel immatériel
- Coopération internationale

En complément le CIOFF® apportera sa coopération dans les domaines suivants:

- Identification du patrimoine culturel immatériel
- Conservation du patrimoine culturel immatériel
- Préservation du patrimoine culturel immatériel

Saman dance, Indonesia, Inscribed in 2011 on the List of Intangible Cultural Heritage in Need of Urgent Safeguarding

## PRINCIPES

Le CIOFF® poursuit ses objectifs en se basant sur les principes de:

- la valeur du patrimoine culturel
- l'égalité entre les patrimoines
- la compréhension entre les peuples
- le respect du patrimoine

## ACTIVITES

Le CIOFF® encourage les activités liées au patrimoine culturel immatériel par :

- **l'organisation:** de Folkloriadas, de congrès mondiaux et de forums, de conférences et d'expositions internationales, de workshop

Adoptée à l'Assemblée Générale de Thessalonique de 1987

Mise à jour à l'Assemblée Générale d'Istanbul de 2008

Olonkho, Yakut heroic epos, Russian Federation, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

# **KULTURPOLITIK DES CIOFF®**

## **PRÄAMBEL**

Der "Internationale Rat von Organisationen von Folklore Festivals und Traditioneller Kunst " (CIOFF®) ist eine Organisation in offizieller Partnerschaft zur UNESCO.

**Unter Beachtung** der Bedeutung des immateriellen kulturellen Erbes als treibende Kraft der kulturellen Vielfalt und als Garantie dauerhafter Entwicklung, wie in dem UNESCO Übereinkommen zur Erhaltung des immateriellen Kulturerbes von 2003 und in der UNESCO Konvention zur kulturellen Vielfalt von 2001 betont

**Unter Berücksichtigung**, dass eine steigende Anzahl von internationalen Regierungs- und Nichtregierungsorganisationen sich mit dem immateriellen, kulturellen Erbe beschäftigen

**Unterstreichen** des Wunsches der Nationalen Sektionen des CIOFF® eine Kulturpolitik nach den Beratungen vom Juli 1996 zu definieren

**Gegeben** in Artikel 6 der Satzung

Um Frieden zu bewahren und die Freundschaft zwischen Ländern zu festigen, fördert CIOFF® internationale Verständigung speziell auf dem Gebiet der Volkskunst und Volkskultur gemäß den Prinzipien der UNESCO.

## **Grundsätze**

**Absicht** Zweck der Charta ist es immaterielles kulturelles Erbe zu fördern in Übereinstimmung mit der Satzung und der UNESCO

**Zweck** Zielsetzung ist es immaterielles Erbe auf den folgenden Gebieten zu fördern:

- Verbreitung des immateriellen kulturellen
- Internationale Zusammenarbeit

Zusätzlich wird die Zusammenarbeit erleichtert bei:

- Identifikation des immateriellen kulturellen Erbes
- Bewahrung des immateriellen kulturellen Erbes
- Erhaltung des immateriellen kulturellen Erbes

## **Grundsatz**

Der CIOFF® verwirklicht seine Zielsetzungen basierend auf

- dem Wert des kulturellen Erbes
- Gleichwertigkeit zwischen den Formen des Erbes
- Verständnis zwischen den Völkern
- Achtung des Erbes

## **Aktivitäten**

CIOFF® fördert Aktivitäten auf dem Gebiet des immateriellen kulturellen Erbes durch:

- **Die Organisation** Der Folkloriadas, von Weltkongressen und Foren, von internationalen Konferenzen, Workshops und Ausstellungen

Angenommen auf Generalversammlung von Thessaloniki 1997

Aktualisiert auf der Generalversammlung in Istanbul 2008

## **POLITICA CULTURAL DEL CIOFF®**

### **PREAMBULO**

El "Consejo Internacional de Organizaciones de Festivales de Folklore y de las Artes Tradiciones" (CIOFF®), es un Colaborador Oficial de la UNESCO.

**Considerando** la importancia que reviste el patrimonio cultural inmaterial, crisol de la diversidad cultural y garante del desarrollo sostenible, como se destaca en la Convención para la Salvaguardia del Patrimonio Cultural Inmaterial de 2003 y como en la Declaración Universal de la UNESCO sobre la Diversidad Cultural de 2001

**Observando** que un número cada vez mayor de gobiernos internacionales y de organizaciones no gubernamentales difunden el patrimonio cultural inmaterial.

**Subrayando** el deseo de los miembros de las secciones nacionales del CIOFF® de definir una política cultural que responda a la consulta general de julio de 1996,

**Teniendo** en cuenta el Artículo 6 de sus Estatutos :

Para mantener la paz y reforzar la amistad entre los países, el CIOFF® promueve la comprensión entre la naciones, particularmente en el terreno del arte popular y de la cultura tradicional, según los principios de la UNESCO

Olonkho, Yakut heroic epos, Russian Federation, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

## OBJETIVOS

**Finalidad** El propósito de esta "carta" promover el patrimonio cultural inmaterial de acuerdo con "carta" de CIOFF® y según los principios de la UNESCO.

**Objetivos** Sus objetivos principales son los promover el patrimonio cultural inmaterial en las siguientes áreas :

- Difusión del patrimonio cultural inmaterial
- Cooperación Internacional

Además, se persigue facilitar la cooperación en las siguientes áreas :

- Identificación del patrimonio cultural inmaterial
- Conservación del patrimonio cultural inmaterial
- Preservación del patrimonio cultural inmaterial

## PRINCIPIOS

CIOFF persigue objetivos basándose en los principios de:

- el valor del patrimonio cultural
- la igualdad entre estos patrimonios
- la comprensión
- el respeto al patrimonio

## ACTIVIDADES

El CIOFF® fomenta las actividades con el patrimonio cultural inmaterial mediante :

- **la organización:** de Folkloriadas, de Congresos internacionales, foros, de conferencias y exposiciones internacionales, de talleres

Adoptada en la Asamblea General de Salonika de 1987

Puesta al día en la Asamblea General de Estambul de 2008

Since the beginning of his existence, CIOFF® is interested by the identification of the style of traditional programs on the stage. In October 1985 through an International Conference of experts in Fribourg – Switzerland, a first classification was adopted. During the World Congress 2005 of CIOFF® in South Africa, a workshop was devoted at this question and a general consultation followed this first exchange. Finally a working group has established a new version of the definitions of the traditional programs on the stage, taking in consideration the content and the styles of expression.

Cultural space and oral culture of the Semeiskie, Russian Federation, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

## Definition of traditional programs on the stage

Intangible cultural heritage should be considered as a progressive process of which the main characteristics are creative activities based on tradition.

From this point on, in order to define programs presented by ensembles of traditional expression, it is necessary to specify at the same time contents and style of expression.

Saman dance, Indonesia, Inscribed in 2011 on the List of Intangible Cultural Heritage in Need of Urgent Safeguarding

In accordance with the definition of the Convention of Safeguarding of the Intangible Cultural Heritage of UNESCO, a program will be considered as representing traditional culture if its content comes from or is inspired by intangible cultural heritage, namely:

- transmitted from generation to generation
- constantly re-created by communities and groups in response to their environment, their interaction with nature and their history
- provides a sense of identity and continuity
- promotes respect of cultural diversity and human creativity

To serve the cause of traditional culture the ensembles choose a style and a way of expression. In accordance with its main activity, which is the organization of festivals of traditional culture, CIOFF® wishes to define the styles of expression through song, music and dance as outlined below:

A program will be considered as **representing authentic expression:**

- if the content is regional
- if the costumes are authentic or faithfully reconstructed
- if music and dance are presented without arrangement

A program will be considered as **representing elaborated expression**:

- if the content covers a number of regions
- if the elements of costumes are adapted
- if the music is harmonized and the elements of dance modified
- if the creation of new dances uses traditional and authentic elements.

A program will be considered as **representing stylized expression**:

- if the content draws its inspiration from the traditional culture of its country
- if the costumes are re-created for the needs of the stage
- if the music and the elements of dance are adapted and re-created to meet the needs of a modern scenic transposition
- if the creation of new dances and music uses traditional elements to represent the creative ideas of the choreographer and the musician.

Olonkho, Yakut heroic epos, Russian Federation, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

## Définition des programmes traditionnels sur scène

Le patrimoine culturel immatériel doit être considéré comme un processus évolutif dont une des principales caractéristiques est l'activité créatrice basée sur la tradition.

Dès lors, pour définir les programmes présentés sur scène par les ensembles d'expression traditionnelle, il convient de préciser à la fois le contenu et le style d'expression.

Conformément à la définition de la Convention sur la sauvegarde du patrimoine culturel immatériel de l'UNESCO, un programme sera considéré comme de culture traditionnelle si son contenu provient ou est inspiré du patrimoine culturel immatériel :

- transmis de génération en génération
- recréé en permanence par les communautés et les groupes en fonction de leur milieu et de leur interaction avec la nature et de leur histoire
- procurant aux communautés et aux groupes un sentiment d'identité et de prospérité
- contribuant ainsi à promouvoir le respect de la diversité culturelle et la créativité humaine.

Pour servir la cause de la culture traditionnelle, les ensembles choisissent un style et un moyen d'expression. En fonction de ses activités principales, dont l'organisation de festivals de culture traditionnelle, le CIOFF® souhaite définir les styles d'expression à travers le chant, la musique et la danse.

Bistritsa Babi, archaic polyphony, dances and rituals from the Shopluk region, Bulgaria, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

Un programme sera considéré comme d'**expression authentique** :

- si le contenu est régional
- si le costume est authentique ou fidèlement reconstruit
- si la musique et la danse sont présentées sans aucun arrangement

Un programme sera considéré comme d'**expression élaborée** :

- si le contenu couvre plusieurs régions
- si les éléments du costume ont été adaptés
- si la musique a été harmonisée et les éléments de danses modifiés
- si la création de nouvelles danses utilise des éléments traditionnels authentiques.

Un programme sera considéré comme d'**expression stylisée** :

- si le contenu s'inspire de la culture traditionnelle de son pays
- si les costumes sont recréés pour les besoins scéniques
- si la musique et les éléments de danse sont adaptés ou recréés pour les besoins d'une transposition scénique moderne
- si la création de nouvelles danses utilise des éléments traditionnels pour présenter la propre idée créatrice du chorégraphe et du musicien.

Indonesian Batik, Indonesia, Inscribed in 2009 on the Representative List of the Intangible Cultural Heritage of Humanity

### **Definition traditioneller Programme auf der Bühne**

Das immaterielle Kulturerbe soll als ein progressiver Prozess betrachtet werden, von dem die wichtigsten Charakteristiken kreative Aktivitäten sind, die auf Tradition basieren.

Deshalb ist es gleichzeitig notwendig, den Inhalt und Ausdruckstil zu bestimmen um die präsentierten Programme von traditionellen Tanzensembles zu definieren.

Im Einklang mit den Richtlinien der UNESCO-Konvention zur Bewahrung des immateriellen Kulturerbes, verkörpert ein Programm eine kulturelle Tradition, wenn sein Inhalt von einem immateriellen Kulturerbe kommt oder von ihm inspiriert ist und wenn es:

- von Generation zu Generation übertragen wird
- ständig von der Gesellschaft und Gruppen wiederhergestellt wird, in der Antwort auf ihr Lebensumwelt, die Einwirkung der Natur und ihre Geschichte
- einen Sinn für Identität und Kontinuität bereitstellt
- den Respekt der Kulturvielfalt und menschlicher Kreativität fördert

Saman dance, Indonesia, Inscribed in 2011 on the List of Intangible Cultural Heritage in Need of Urgent Safeguarding

Um den kulturellen, traditionellen Anlässen zu dienen, wählen die Ensembles eine Ausdrucksform. In Übereinstimmung mit seiner Hauptaktivität, der Organisation von traditionellen Kulturveranstaltungen, möchte der CIOFF® die Ausdruckstile von Liedern, Musik und Tänzen folgendermaßen beschreiben:

Ein Programm wird als **authentische Ausdrucksform** bezeichnet, wenn:

- sein Inhalt regional ist
- die Trachten authentisch oder originalgetreu nachgeschneidert sind
- die Musik und der Tanz ohne Arrangements präsentiert werden

Ein Programm wird als **bearbeitete Ausdrucksform** bezeichnet, wenn:

- sein Inhalt mehrere Regionen erfasst
- Elemente der Trachten angepasst sind
- die Musik harmonisiert ist und Tanzelemente modifiziert sind
- es sich um neue Tanzkreationen handelt, die traditionelle und authentische Elemente besitzen

Ein Programm wird als **stilisierte Ausdrucksform** bezeichnet wenn:

- der Inhalt inspiriert ist von der traditionellen Kultur des Landes
- die Trachten der Bühnenvorstellung angepasst sind
- die Musik und Tanzelemente der Notwendigkeit moderner Bühneninszenierung angepasst sind
- die Musik und die neuen Tanzkreationen traditionelle Elemente benutzen, die den kreativen Ideen der Choreographen und Musikanten Ausdruck geben

Bistriza Babi, archaic polyphony, dances and rituals from the Shoplounk region, Bulgaria, Inscribed in 2008 on the Representative List of the Intangible Cultural Heritage of Humanity

### **Definición de programas tradicionales en escena**

El Patrimonio Cultural Inmaterial debe considerarse como un proceso progresivo, que posee entre sus elementos más importantes, las actividades creativas basadas en la tradición.

Por tanto, para definir los programas realizados por los cuerpos de bailes tradicionales, es necesario especificar al mismo tiempo contenidos y estilos de expresión.

De conformidad con la definición de la Convención de la UNESCO para la Salvaguardia del Patrimonio Cultural Inmaterial, un programa será considerado de cultura tradicional si su contenido proviene o es inspirado por un patrimonio cultural inmaterial:

- Transmitido de generación en generación
- Constantemente recreado por comunidades y grupos motivados por su entorno, su interacción con la naturaleza y su historia
- Proporcionándoles un sentido de identidad y continuidad
- Que promueva el respeto por la diversidad cultural y la creatividad humana

En aras de servir a la causa de la cultura tradicional, los cuerpos de baile elijen un estilo y una forma de expresión. De acuerdo con su actividad principal, que es la organización de festivales de cultura tradicional, CIOFF® desea definir el estilo de expresión a través de canciones, música y danza

Saman dance, Indonesia, Inscribed in 2011 on the List of Intangible Cultural Heritage in Need of Urgent Safeguarding

Un programa será considerado de **expresión auténtica**:

- Si el contenido es regional
- Si los trajes son auténticos o adaptados adecuadamente
- Si la música y la danza no incluyen arreglos

Un programa será considerado de **expresión elaborada**:

- Si el contenido cubre varias regiones
- Si los elementos de vestuario son adaptaciones
- Si la música es armonizada y los elementos de danza modificados
- Si se trata de la creación de nuevas danzas utilizando elementos tradicionales y auténticos

Un programa será considerado de **expresión estilizada**:

- Si el contenido está inspirado por la cultura tradicional del país
- Si el vestuario es recreado para la puesta en escena
- Si la música y los elementos de la danza son adaptados y recreados por necesidad de una moderna transposición escénica.
- Si la creación de nuevas danzas y música utiliza elementos tradicionales para presentar una idea creativa producida por coreógrafos y músicos

## Sous le haut patronage du Ministère des Arts et de la Culture : FIRRERMAT

CIOFF CAMEROON ORGANISE LE 1<sup>er</sup> FESTIVAL INTERNATIONAL DES RENCONTRES, DES RITUELS, DES STYLES, DES MASQUES ET D'ARTS TRADITIONNELS (FIRRERMAT)

1. Venir à la rencontre des pratiques artistiques africaines et intercommunales et développer votre activité.
2. Participer aux échanges sur les enjeux et défis de la gestion des ressources du Patrimoine Culturel Immatériel (PCI), la protection, la sauvegarde et la diffusion du PCI de l'Afrique.
3. Partager votre expérience et vos projets avec les experts de la culture du CIOFF, UNESCO et partenaires au développement de la culture.
4. Associer votre image au plus grand rassemblement culturel de la protection, sauvegarde et diffusion de la culture en Afrique.

### RENSEIGNEMENT

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

 Festivalul Internațional de Folclor 'Muzici și  
Tradiții în Cismigiu' -

@ comunicare@creart.ro, ☎ www.creat.ro

S

The poster is framed by a decorative border with a blue background and orange and green floral patterns. At the top, it features the Bucharest City Hall logo and a blue banner with a white 'B'. Below this, there is an illustration of two people in traditional Romanian folk costumes, a man and a woman, holding hands. The title 'The International Folklore Festival' is written in a large, stylized font, followed by 'Music and Traditions in Cismigiu' in a smaller font. Below the title, it says 'THE 13th EDITION' and '21st - 23rd OF JUNE 2019'. The text describes the festival as an event organized by Bucharest City Hall through creart - Center for Creation, Art and Tradition of the Municipality of Bucharest, since 2007. It mentions that the festival is the only event of its kind in the south of Romania, bringing authentic traditions into urban areas through music, dance, and folk art. The program includes a parade of traditional costumes, authentic folklore shows of music and dance, a crafts fair, demonstrations of craftsmanship, an alternative space dedicated to reinterpreted folklore performances - Film Zone (May Zone), workshops, and a gastronomic area, all with free admission. It also states that over the 12 editions, the festival enjoyed the presence of ensembles from more than 30 countries and 26,000 national and international artists, over 800 artisans from Romania, and an audience of 280,000 people. At the bottom, it provides the website 'www.fifbucuresti.ro' and the logo for creart - Center for Creation, Art and Tradition.

Bucharest City Hall

THE 13th EDITION  
21st - 23rd OF JUNE 2019

Bucharest City Hall, through **creart** - Center for Creation, Art and Tradition of the Municipality of Bucharest, organizes since 2007 the International Folklore Festival "Music and Traditions in Cismigiu". It is the only event of its kind in the south of Romania, that brings authentic traditions into urban areas through music, dance and folk art, promoting the beauty and uniqueness of every nation. The National Television is the traditional co-producer of the event, broadcasting every year the most beautiful moments of music and dance presented at the event.

The program of the festival gathers a parade of traditional costumes, authentic folklore shows of music and dance, a crafts fair and demonstrations of craftsmanship, an alternative space dedicated to reinterpreted folklore performances - Film Zone (May Zone), workshops, as well as a gastronomic area, all with free admission.

Over the 12 editions, the festival enjoyed the presence of ensembles from more than 30 countries and 26.000 national and international artists, over 800 artisans from Romania and an audience of 280.000 people.

## **BASHKORTOSTAN IS READY TO HOST CIOFF® WORLD FOLKLORIADA 2020**

Less than two years are left till one of the marvelous world events – feast of bright colors of cultures and peoples. VI CIOFF® World Folkloriada 2020 will be held in the Republic of Bashkortostan, Russia. Bashkortostan is one of the leading regions with a great experience in conducting different kinds of international events – festivals, forums, conferences, etc.

"Maslenitsa" Folk Feast. Greeting the guests. Bashkortostan Republic

By the moment there are 65 applications have been received from different countries. It is time for CIOFF® National Sections to determine the best group to present their country in Russia in 2020. The draft program of Folkloriada 2020 consists of numbers of colorful activities: concerts, parades, forums, playing traditional folk games, workshops, making and trying different tasty cuisines, exhibitions of handicrafts, excursions and so on.

In 2018 the 48<sup>th</sup> CIOFF® World Congress and General Assembly took place in the capital of Bashkortostan, in the city of Ufa. Before the annual event started, the Folkloriada Committee members had traveled around some municipalities of the region in order to examine the venues which will be involved into the festival program of Folkloriada 2020: scenic platforms, squares, stadiums, houses of culture, accommodation, etc. During this well organized program, the members were hosted by one of the wonderful places of Bashkir land – the Shulgan-Tash Reserve, the place where the ancient cave Shulgan-Tash, sacred for Bashkir people, is located. The guests had an excursion across the park and after making acquaintance with Bashkir culture, traditional arts, they were represented a unique program, introduced by the National Orchestra of Folk Instruments of the Bashkir State Philharmonic. The musicians played amazingly some of the

oldest folk compositions within the walls of that old dwelling of their ancestors. That was mysterious and picturesque scene.

CIOFF® Folkloriada 2016

The 48<sup>th</sup> CIOFF® Congress was attended by 133 people from more than 50 countries of the world. The Congress schedule had a rich cultural program which let the participants learn more about the Republic and its people. The meeting of EXCO members and the Head of the Republic related to the questions of accommodation, transportation, medical care, catering, security, and the officials also discussed possible venues for the opening and closing ceremonies of Folkloriada. For the Republic the Congress gave the opportunity to demonstrate to the representatives of National Sections the infrastructural, organizational, managing abilities of the region for implementation of the coming Folkloriada in high level.
